Aloha, I would like to request information about the Department's use of red light and speed enforcement cameras ("cameras"). Specifically, I would like a copy of:

- The Department's policies, procedures, or rules regarding cameras, including documents sufficient to describe who may use cameras, what cameras may be used for, the collection and retention process for data from cameras, the process for data sharing from cameras, and the oversight process for use of cameras.
- Documents sufficient to identify the Department's data sharing relationships with other federal or state agencies or other third parties regarding cameras, e.g., agreements or memoranda of understanding.
- All records maintained by the Department that were obtained from a camera regarding my registered vehicle [REDACTED]. To the extent that the Department is unable to verify my registration independently, I can provide proof of ownership at the department's offices.

Best,
Brian
